

OVERVIEW

2xCalc is an intuitive yet powerful **calculator** that enables you to **convert**:

- physical measures: more than 130 units in 13 categories
- currencies, with daily updates of about 90 rates, available online

Currencies can be updated through your PC or directly over the air for WiFi PDAs.

LAYOUT

SUPPORTED DEVICES

The following Pocket PC platforms are supported:

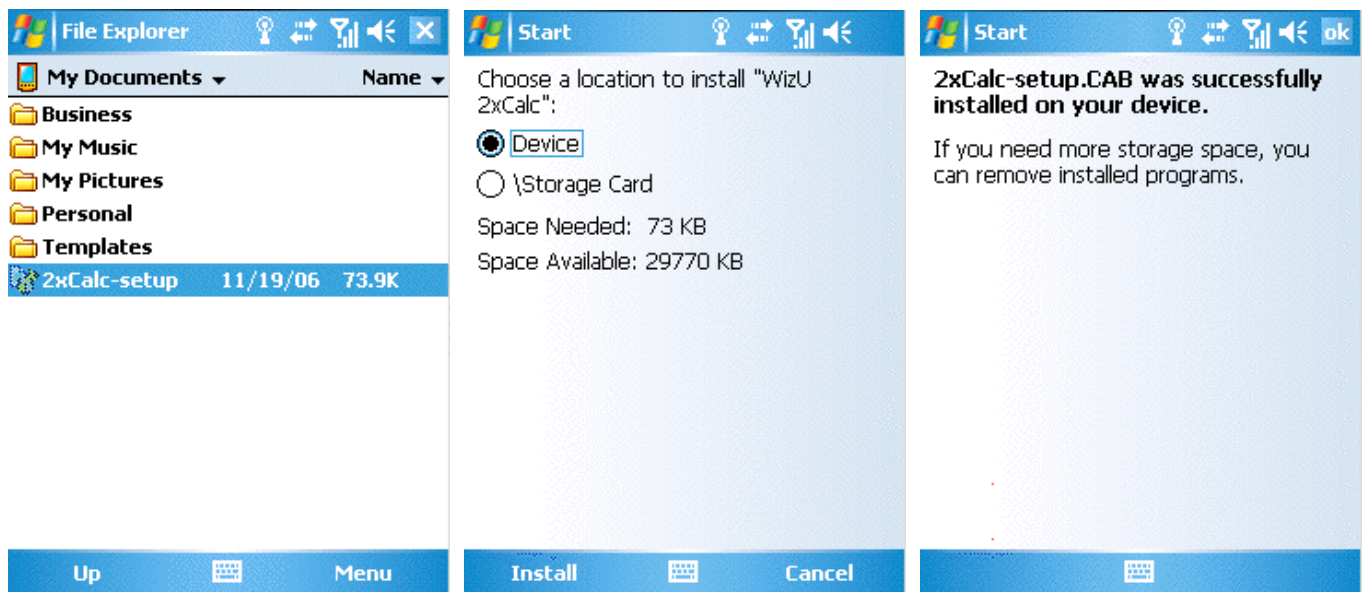

- Windows Mobile 2003
- Windows Mobile 2003 SE (Second Edition) and
- Windows Mobile 5.0

2xCalc supports **QVGA** (320x240) and **VGA** (640x480) resolutions, as well as new Square resolutions featured by some SmartPhones. **2xCalc** can run in both portrait and landscape modes.

INSTALLATION

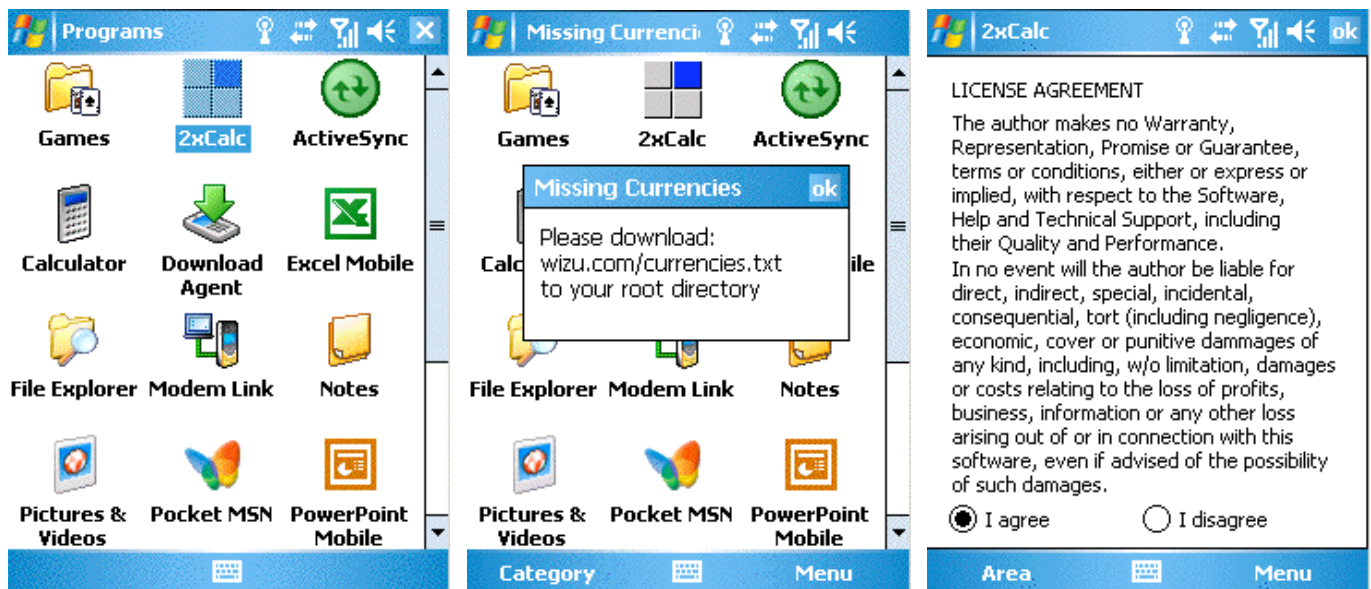

Just download and run the [2xCalc-setup.CAB](#) file on your handheld.

The program file: **2xCalc.exe** will be installed, by default in the **Program Files\2xCalc** directory.

FIRST STEPS

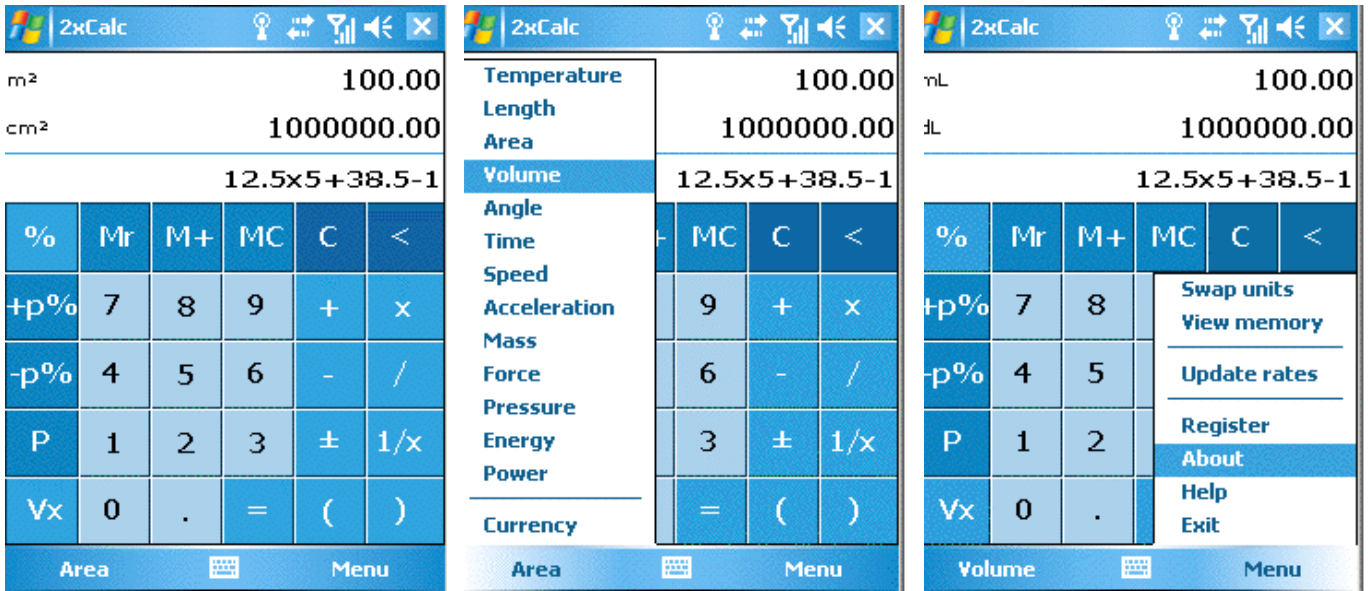

Please select 2xCalc in the list and read the License Agreement:

MENUS

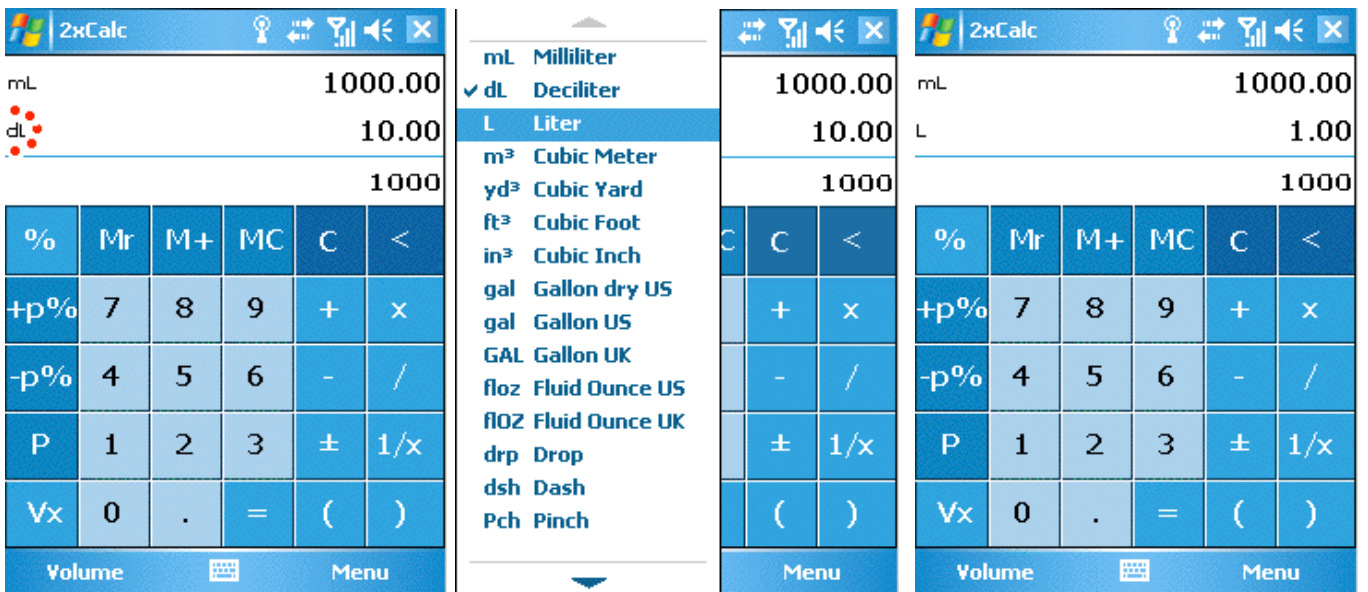

To change the category of units, just click on the lower-left menu item. There are 14 different categories. The lower-right menu lets you

- swap the units
- view the memory & percent registers
- update the currency rates - if you downloaded a new currencies.txt file in your root \ directory
- register your product – through www.wizu.com/2xCalcforWindowsMobile.html
- browse the embedded help file

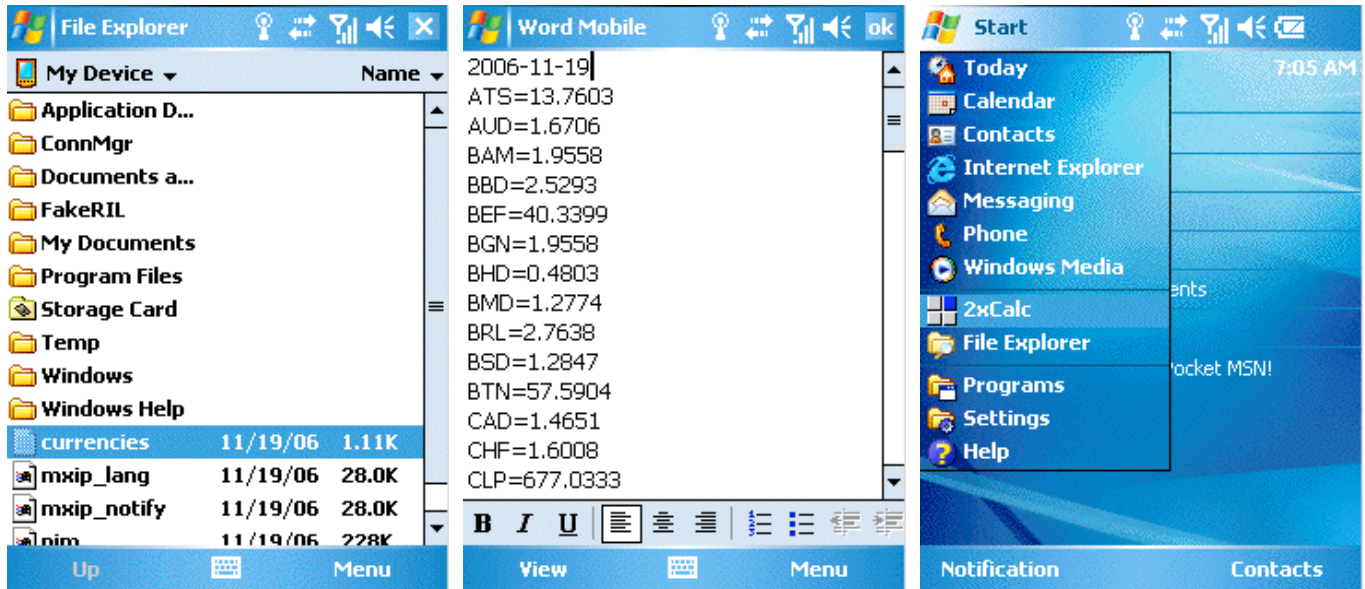

UNITS

Just click on any of the two unit labels to select another unit, in the popup list:

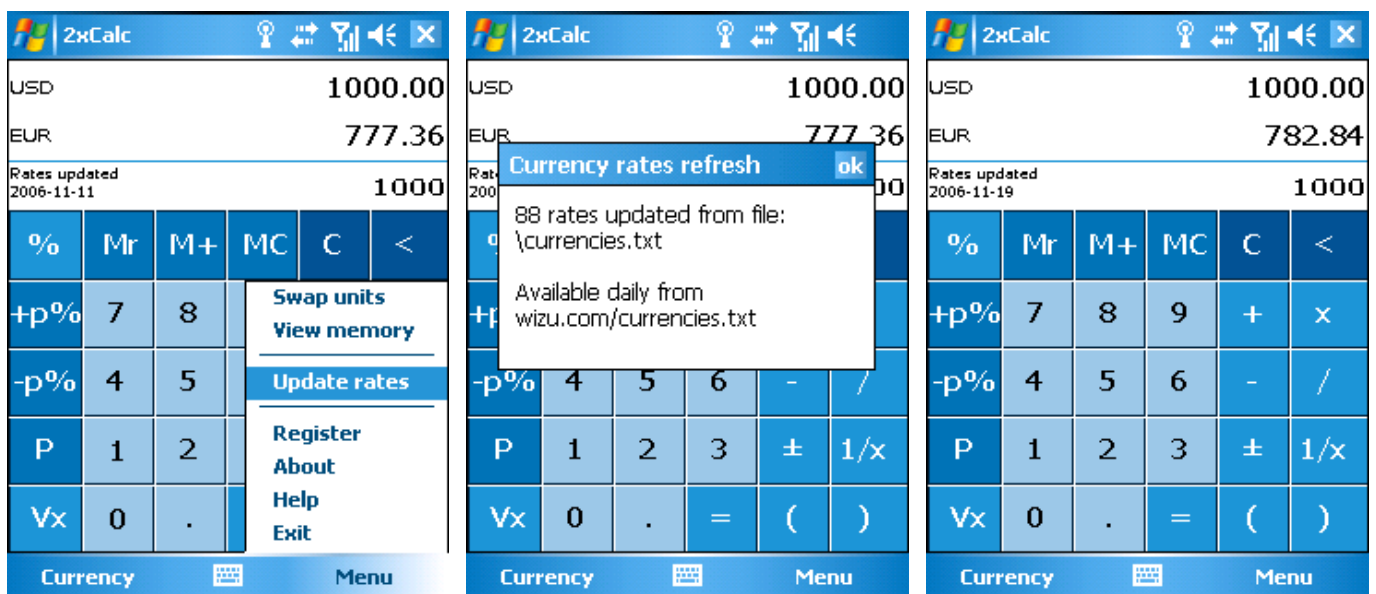

CURRENCY RATES

You can download the currency rates update anytime from www.wizu.com/currencies.txt
 The file includes about 90 currencies and is refreshed daily from European and North-American banks.
 Just download it to your root \ directory. You can even edit the file with Word Mobile™

CURRENCY UPDATE

Once the **currencies.txt** file is downloaded, 2xCalc will automatically update the rates at next run.
 If the program is still running, you can also force the update, through the lower-right menu, as follows:

PRODUCT REGISTRATION

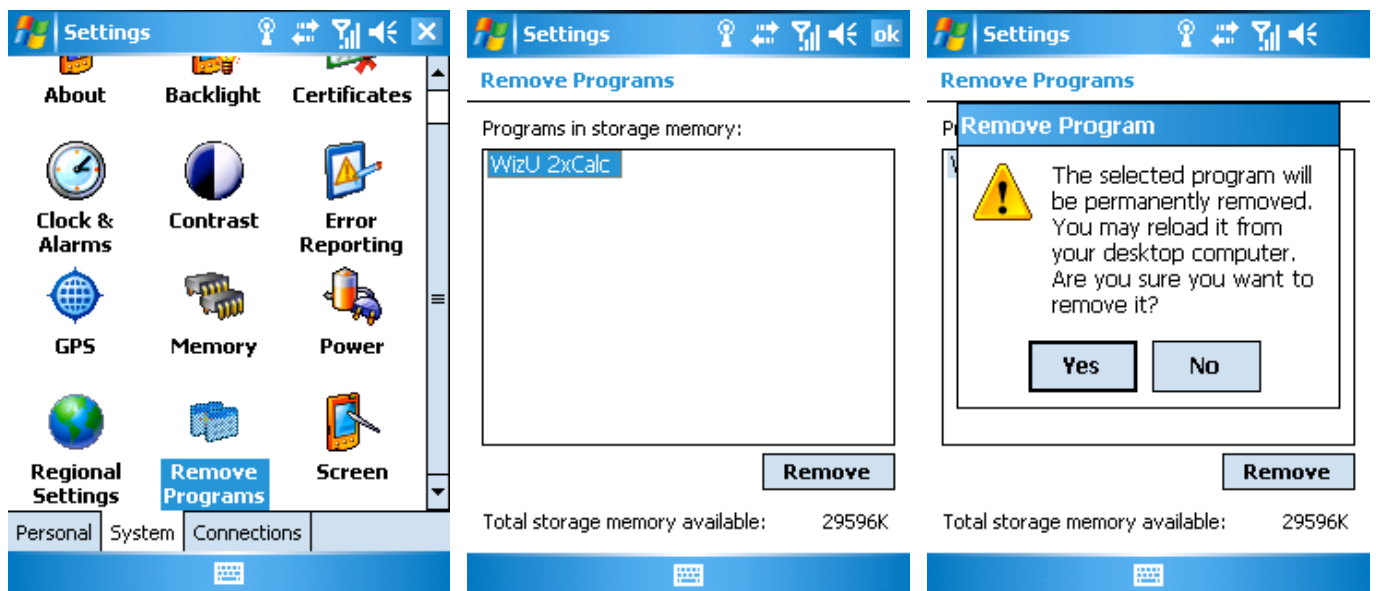

If you decide to keep and use 2xCalc, please register through www.wizu.com/2xCalcforWindowsMobile.html to pay your **license fee** and get your **registration code**, computed according to your Owner ID.

Then please enter this code to unlock the demo limitation (parenthesis):

UNINSTALLATION

If you wish to uninstall the program, just run the "Remove Program" system tool and select WizU 2xCalc in the list, and voila.
